

## John's Adventures

### John's Background Switcher

John's Background Switcher puts beautiful full-screen photos and stunning montages on your desktop from places like your computer, Flickr, SmugMug, Unsplash, Instagram and plenty more places. Choose your platform below:

John's Background Switcher for **Mac**

John's Background Switcher for **Windows**

Then you can have beautiful desktop backgrounds like these!

My Sites

Reader

Enjoy! 😊

## Privacy

computer and doesn't transmit any of that back to me or any third parties. The only exceptions are when JBS checks for updates (which passes the version of JBS you're using back to me) or on the rare occasion it crashes it sends back an anonymised crash log which contains no data that enables me to identify you.
