Blue square on my scree?

I powered up this morning, checked my mail.

A cyan coloured rectangle is now chasing every word I type or enveloping every item I land on with my mouse?

The square is random in size (it changes) and position on my screen - it literally follows the cursor. Is this an aid to reading or what?

Can any body help to get rid of it please?
Most odd and eerie. Never seen this on Windows!

Hi George,

Thank you for being part of Windows 10.

You would have accidently turned on the narrator. I would request you to press Caps lock+ Esc and check if narrator is disabled.

Do get back to us for any issues pertaining in the future. We will be happy to help.
