Where are fonts stored in Windows 10 and the font folder location?

Example to find stored fonts in the Windows 10, please start the MS Explorer to install, or uninstall the Windows Fonts!

Content / Solutions / Tips:
1.) ... Find and open the Fonts Folder in Windows 10!
2.) ... Copy a font eg install from another folder on Windows-10!
3.) ... Create a Desktop Shortcut for Windows 10 font Folder!
4.) ... Keyboard Shortcut for a fast access to Font Directory!

See also: ► Change the System Fonts, Title, Caption, Menus, Icons ► ... Font Overview OK 4 Windows

1.) Find and open the fonts <u>Folder in Windows 10</u>!

Please use the hot key **[Windows + E]** and enter in the address bar Address: **shell:fonts** or **%WINDIR%/Fonts** !
(... see Image-1 Arrow-1) and now you can see all **installed fonts on the Windows 10** (... see Image-1 Arrow-1).

Please use drag&drop or copy and paste to install the new fonts for Windows 10, or [Del] to uninstall fonts!

In Windows-10 Fonts Overview, you can also **change the System Font size** or **Adjust Clear Type text**!
(... see Image-1 Arrow 4&5)

At this point, you can create a **Desktop Shortcut** for the **System-Fonts-Folder** on the Windows-10 Desktop, it is very easy,
by using Drag & Drop! (... see Image-2 Arrow-1)

....

Copy install fonts on Windows 10! (Image-3)

Fonts are ordinary files with a specific extension. For fonts that support Windows 10, the .ttf extension is the TrueType font, and the .otf extension is OpenType. Sometimes a font can consist of several similar files that define the outline of the same font. Before you install a font on your system, you can see what the font looks like. After opening the file, just double-click on the file with the font to see what the font looks like and check if the font matches the font!
► Uninstall fonts from Windows-10 (remove, delete)!

► auto startup folder in Windows 10 ► notepad in windows 10!   ▲ Back to the top ▲

3.) Create a Shortcut for Windows font Folder!

....

Now enter the full location path of the Font Directory: **C:\Windows\Fonts** (Optional: **shell:fonts**)

Click the Button **"Next"**.

Please enter the name for the Desktop-Shortcut, you can use **Fonts** or enter **Font Folder**.
(**... see Image-4 Point 1 to 4**)
